

# Admissions

## **General admission policy**

For health & safety reasons we are unable to admit entry into the centre until **5** minutes before the start of a session. However, in an instructor-led session, this is increased to **10** minutes before the session

## **Child admission policy**

This is set using the guidelines and recommendations from the Institute of CIMSPA and is endorsed by the Health & Safety Executive

## **Supervision of children**

All children under the age of eight should always be accompanied in the centre (including changing areas) by a parent/guardian. A parent/guardian, for the purpose of this guidance, is defined as someone over the age of sixteen - or younger if the person is the biological parent of the child or children
